DETAILED ACTION

1. Claims 1-15, 17, 29-33, and 35-47 are pending. Claims 12, 31, and 32 have been amended in this communication filed 03/01/05 entered as RCE and Amendment.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-11, 17, 29-33, and 35-46, drawn to presenting item information, communicating a variable price schedule, receiving a reminder command, and notifying the user when the entry in the variable price schedule is reached, classified in class 705, subclass 27.
- II. Claims 12-15 and 47, drawn to presenting a series of time separated future price choices from a falling-price schedule, classified in class 705, subclass 37.

3. Inventions Group I and Group II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because Group I combination has separate utility such as presenting item information, communicating a variable price schedule, receiving a reminder command, and notifying the user when the entry in the variable price schedule is reached. Group II the subcombination has

Art Unit: 3624

separate utility such as presenting a series of time separated future price choices from a falling-price schedule.

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

6. Applicants' are advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
